Raken

Empowering the people who build the world

The field's favorite app

At Raken, our mission is to create happier, safer, and more efficient jobsites. We designed our app for the field first to make communicating between the jobsite and office as easy as possible.

Trusted by more than 4,000 of the world's leading construction companies:

HENSEL PHELPS
Plan. Build. Manage.

The ~~worst~~ *easiest* part of your day

Out with the old		In with the new
Piles of paperwork	➜	Digital file storage
Missing reports	➜	Quick & easy surveys
Project delays	➜	Real-time information
Budget overruns	➜	Actionable insights
Legal disputes	➜	Photo documentation
Safety incidents	➜	Accident prevention
Headaches	➜	Raken

Everything you need to get home faster
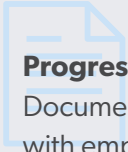

Progress
Document and share jobsite updates with employees, subs, vendors, and clients—and provide a complete picture of daily progress with photos, videos, and notes.

Productivity
Record timely, accurate production data straight from the field. Log materials installed, heavy equipment usage, and hours for individuals and crews.

Safety
Bulk schedule safety meetings for each job and easily store meeting attendance records. Select from a library of preloaded toolbox talks, or upload your own.

Field insights
Gain valuable business insight with real-time reports. Use field data to improve project margins by predicting labor, material, and equipment needs.

Don't just take our word for it:

"The amount of time Raken saves our guys really contributes to their quality of life. They're not spending all their time in front of a computer. They can get in, get their daily reports done, and go see their families."

Rich D.
Project Superintendent, Hensel Phelps

"I'm older than dirt and younger than dust and this app is just great for us older folks."

Matt R.
Superintendent, Grindstone

"Raken elevates our company to a better level over our competitors that aren't using it."

Blair M.
Director, Opus Mechanical
